Nickel-Safe Ice Machine Cleaner

FOOD GRADE

*Made for Use on Machines with
Nickel-Plated Evaporators*

**The First Nickel-Safe
Ice Machine Cleaner
Highly Concentrated**

FOR PROFESSIONAL USE ONLY

1 U.S. Gallon (3.8 liters)

DIRECTIONS FOR USE:

This product must be used in accordance to the following directions by HVACR professionals only.

1. Turn off refrigeration, shut off water supply and remove ice from bin.
2. Remove water trough, water curtain(s), water distribution tube(s), and other parts that may be scaled with deposits.
3. Mix 3 oz. Nickel-Safe Ice Machine Cleaner per gallon of warm water in plastic container and place components in solution. Soak the components until they are free of deposits; for stubborn or thick use a soft brush to help the dissolving action.
4. Use above solution to clean storage bin, top, bottom and side extrusions and other components where deposits have collected, then rinse cleaned areas with fresh water.
5. Replace cleaned components and turn on water.
6. To clean evaporator as well as the remaining recirculating water system, add Nickel-Safe to the water in ice maker according to the manufacturer's instructions. If none are available, use 5 fl. oz. of Nickel-Safe per gallon of water in the machine.
7. Allow cleaning solution to circulate for up to 10 minutes; it may be necessary to recirculate the solution for longer than 10 minutes to remove heavier and thicker scale deposits. Be sure all distribution and weep holes are clear. Drain cleaning solution and flush with fresh water for a minimum of 30 seconds. After flushing, plug the drain.
8. Thoroughly rinse bin with clean water after all components are cleaned.
9. Return machine to service; discard first batch of ice.

THIS PRODUCT HAS BEEN AUTHORIZED BY THE U.S.D.A. FOR USE IN FEDERALLY INSPECTED MEAT AND POULTRY ESTABLISHMENTS.

DANGER

May be corrosive to metals. Causes skin irritation.
Causes serious eye damage.

PREVENTION: Wear eye protection. Wear protective gloves. Wash thoroughly after handling. Keep only in original packaging. **RESPONSE: IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor. **IF ON SKIN:** Wash with plenty of water. Specific treatment (see information on this label). If skin irritation occurs: Get medical attention. Take off contaminated clothing and wash it before reuse. Absorb spillage to prevent material-damage.

STORAGE: Store in a corrosion resistant container with a resistant inner liner.

DISPOSAL: Dispose of container in accordance with local, regional, national and international regulations.

KEEP OUT OF REACH OF CHILDREN.
