

DIRECTIONS FOR USE:

This product must be used in accordance to the following directions by HVACR professionals only.

Apply a uniform coating liberally on the surfaces wherever leaks are suspected. Visually examine surfaces for signs of foam or small bubble formation. Be patient - wait a minimum of 5 minutes. Check bottom of all fittings for increased bubbles/foam. If a leak is found in a refrigeration system, consider Nu-Calgon's EasySeal if the situation is appropriate.

NOT FOR USE ON OXYGEN SYSTEMS.

Authorized by the U.S.D.A. for use in federally inspected meat and poultry plants.

⚠️WARNING: This product can expose you to chemicals including formaldehyde, which is known to the State of California to cause cancer, and methanol, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.
