

APPLICATION:

Indoor coils on air conditioning systems. Ideal for aluminum coils, including microchannel design.

DIRECTIONS FOR USE:

This product must be used in accordance to the following directions by HVACR professionals only.

1. Goggles, gloves and other protective garments should be worn when using this product. System must be shut off.
2. Apply using any of the Nu-Calgon sprayers or other durable, low pressure, plastic sprayer.
3. Prepare cleaning solution by mixing one part Evap Pow'r-C to three parts water. Add the water to the sprayer first, then add the cleaner.
4. Spray cleaning solution onto dirty evaporator. Rinsing is not required particularly where there is sufficient humidity being condensed from the ambient air to provide a flushing or rinsing action.
5. Return system to service.
6. Rinse out sprayer, spraying wand and nozzle.
7. When container is empty, rinse, replace cap and dispose of properly.

NOTE: For maximum results, do not use Evap Pow'r-C undiluted or any stronger than one part cleaner to three parts water.
