

Aerosol Nu-Brite® is a convenient option for effective cleaning of grimy, dirt loaded condenser coils. Its high foaming characteristic pushes soil deposits out of the coil and leaves a clean, brightened coil. Product is not recommended for painted fin or microchannel coils - Use Aerosol Tri-Pow'r®HD, Cal-Blast®, or Nu-Blast®. Aerosol Nu-Brite® can also be used in a kitchen setting with proper provisions. It is highly effective in emulsifying stubborn, oil-based deposits that can plug coils located in kitchens. In this application, the product must be used where ample ventilation exists. In all applications, Aerosol Nu-Brite® must be thoroughly rinsed.

DO NOT USE ON EVAPORATOR COILS. EFFECT ON ROOFING MATERIAL: Depending on its composition and condition, the color and finish of the roofing material can be affected by the coil cleaners (e.g. discoloration or tarnishing) It is recommended that the coil cleaner be tested on a small area of the roof prior to cleaning, particularly galvanized or standing seam metal roofs. Do not use on aluminum or aluminum-coated surfaces.

RUBBER ROOFS: In general, the product is safe on rubber roofs except where the rubber roof is impregnated with aluminum chips (i.e. modified bitumen roof); do not use on rubber roofs that contain aluminum. In these circumstances, use Nu-Blast®, Cal-Blast®, Blackhawk™ or Aerosol Tri-Pow'r®HD - first evaluate in a small area.

DIRECTIONS FOR USE: This product must be used in accordance to the following directions by HVAC professionals only.

1. Prior to use, insure area has adequate ventilation.
2. Use goggles, gloves, and other protective clothing.
3. Shut off and protect sensitive controls or contacts with plastic.
4. Apply Aerosol Nu-Brite® to coil or other greasy surface, and allow it to emulsify deposits for about 5 minutes. For heavily soiled or very greasy deposits, wait up to 10 minutes.
5. Rinse thoroughly to insure adequate flushing.
6. For coils, apply Cal-Shield® coating for added corrosion protection.

DANGER

Contains gas under pressure; may explode if heated.
May be corrosive to metals.
Causes severe skin burns and eye damage.

PREVENTION: Keep only in original packaging. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection. Do not breathe the mist or vapor. **RESPONSE:** Absorb spillage to prevent material damage.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. **IF ON SKIN (OR HAIR):** Take off immediately all contaminated clothing. Rinse skin with water. Wash contaminated clothing before reuse. **IF INHALED:** Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTER/doctor. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

STORAGE: Stored locked up. Protect from sunlight. Store in a well-ventilated place. Store in a corrosion resistant container with a resistant inner liner.

KEEP OUT OF REACH OF CHILDREN.

DISPOSAL: Dispose of contents/container in accordance with local/regional/international regulations.

CONTAINS (CAS#): Aqua (7732-18-5), Sodium Hydroxide (1310-73-2), Butane (106-97-8), Ethanolamine (141-43-5), Propane (74-98-6). For more ingredient information visit www.nucalgon.com. 800-554-5499.
