Nu-Calgon

iWave-M

Mini Flexible Air Cleaner

Mini-Split, PTAC or Ice Machines
 18 Inch Bar Quickly Installs INSIDE System
 No Replacement Parts

Patent Pending

4900-35

Nu-Calgon

iWave-M

Mini Flexible Air Cleaner

FEATURES

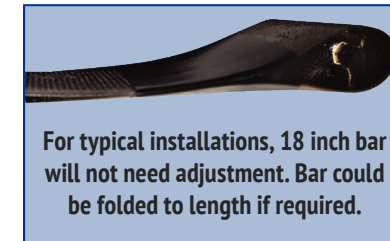

World's First Flexible Ionization Bar
 Compact Design For VRF And PTAC Installs
 Versatile For Ice Machines
 High Ion Output Device
 No Replacement Parts
 No Ongoing Costs, Easily Maintained
 Adjustable, If Required

Integrates INSIDE Of System
 Produces No Harmful Byproducts - 0.00Ppm Ozone¹
 Universal Mounting - Simply Adhere To Clean Surface
 Ionizer Bar Is Chemical, Heat, And Cold Resistant
 Versatile Voltage Input - 110 Or 240Vac
 Uses Little Power (Less Than 5 Watts)

¹ Tested and passed UL 867-2007 ozone chamber test.

EASY TO INSTALL

Installs in minutes – locate near evaporator, for coils up to 36 inches in width. Use hook and loop backing on ionizer and powerpack and center ionizer along coil width at air intake to best treat coil barrel blower and indoor air. Affix and supply power to device. For ice machines, install along equipment cabinet out of water circuit and away from moving parts.

For typical installations, 18 inch bar will not need adjustment. Bar could be folded to length if required.

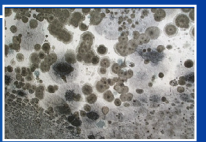

Nu-Calgon | 2611 Schuetz Rd. | St. Louis, MO 63043
 Customer Service: 800-554-5499 | Chemical Emergency: 800-424-9300

BENEFITS

Kills Bacteria and Virus such as E. Coli, Staph, MRSA, and Tuberculosis
 Prevents "Dirty Sock" Syndrome
 Reduces Static Electricity
 Removes Pet and Cooking Odors
 Reduces Ventilation Requirements

Kills Airborne Mold
 Reduces Smoke
 Controls Allergens
 Reduces Air Particles
 Reduces VOCs
 Keeps Coil Cleaner

Independent testing shows Cold Plasma kills 96% of pathogens, including H1N1, in 30 minutes in the living space. Reduced Legionella by 99.71%.

iWave-M vs. Other Market Options:

iWave-M is a revolutionary patent-pending flexible ionizing bar that is compact and versatile for proactive room purification in commercial VRF systems, mini-splits, PTAC, duct systems (up to 1200 CFM) or ice machines for mold prevention! iWave-M installs INSIDE the system and uses patented cold plasma technology – the same cleaning approach as nature.
