ClenAir[™] is a fast-acting, Citrus scented deodorizing system. Unlike regular deodorizers that simply use heavy perfumes and oils to disguise odors, **ClenAir** eliminates odors via an oxidation process while leaving a fresh Citrus scent. **ClenAir** is also Biodegradable, Non-Toxic, Non-Staining and approved for usage in homes and businesses.

DIRECTIONS

Spray and wipe down surfaces after cleaning to remove odors, including those caused by urine, feces, pets, smoke, formaldehyde, mold and mildew. Use **ClenAir** in vehicles, kennels, storage lockers, smoking areas and in garbage areas. Use **ClenAir** Liquid Spray in conjunction with **ClenAir** Gel to maintain an odor-free environment.

Air Conditioner: For Central Air Systems spray into intake vents while fan is running. Spray onto Evaporator Coil and into Ductwork and Condensate Drain Pan.

Plumbing: Pour **ClenAir** down seldom used drains to keep rooms fresh smelling. Use after leaks and back-ups.

Mildew/Musty Odors: Add 4 oz. of **ClenAir** to a gallon of water. Use to wipe off excess mildew. Then spray all areas and allow to dry.

Restrooms/Locker Rooms: Spray around toilet, sink, showers and lockers to keep rooms fresh. Spray directly on equipment and pads and wipe dry.

Urine: Remove as much urine as possible with soap and water. Saturate carpet or bedding to source of odor with **ClenAir**. Use towel to soak up excess liquid and allow area to dry.

CAUTION: EYE IRRITANT. Avoid contact with eyes. Keep out of reach of children. Always test fabrics for colorfastness. Avoid freezing.
